Revision Date: 1/20/25

Sprint 1 Plan

Goal: We want baseline functionality for the app so that a user can log in with their Google account and see a map of Santa Cruz.

Task Listing:

User story 1: As a user, I want to gain access to the site through Google login so that event organizers are separate and people cannot impersonate me (8 story points).

Task 1: Create a simple backend for the website. This will be done within Flask in *app.py*. (3 hours)

Task 2: Connect the database to backend, *app.py* will handle this, as well as on the *Firebase* hosting site. (2 hours)

Task 3: Research Google login integration. (1 hour)

Task 4: Integrate Google sign in to frontend/backend, done in *app.py*. (3 hours)

Total for user story 1: 9 hours

User story 2: As a user, I want to see a map of Santa Cruz so that I can choose where to put an event (8 story points).

Task 1: Research Google maps integration. (1 hour)

Task 2: Integrate Google maps in to frontend, this happens in *Map.jsx*. (3 hours)

Total for user story 2: 4 hours

Team Roles:

Bolor Battulga : Developer

Stanley Good : Project owner {Developer}

Sotirios Kougiouris : SCRUM master {Developer}

Vince Moreno : Developer

Milad Taimuri : Developer

Initial Task Assignment:

Bolor Battulga : User story 2: Tasks 1-2

Stanley Good : User story 1: Tasks 3-4

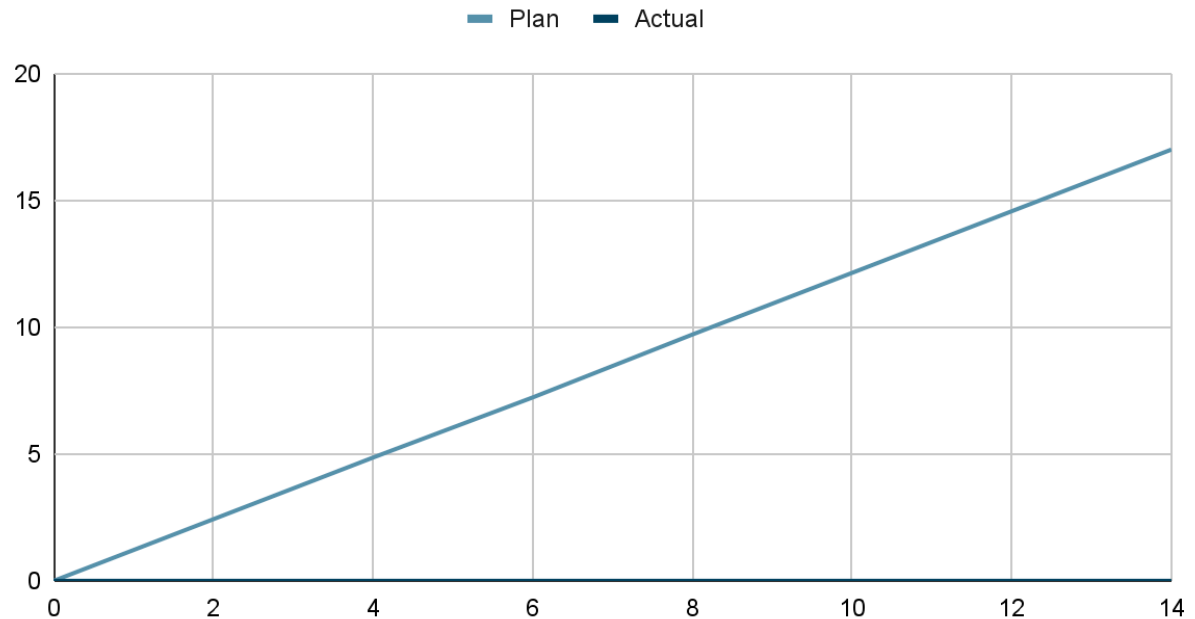

Sotirios Kougiouris : User story 1: Task 2, Task 4

Vince Moreno : User story 1: Task 1

Milad Taimuri : User story 2, Tasks 1-2

Initial Burnup Chart:

Sprint 1 Initial Burnup Chart:

Initial Scrum Board:

User story	Tasks not started	Tasks in progress	Tasks completed
As a user, I want to gain access to the site by logging in through Google.			Task 1, Task 2, Task 3, Task 4
As a user, I want to see a map of Santa Cruz.			Task 1, Task 2

Scrum Times:

Monday (in-person) @11:00-12:00pm (with TA)

Wednesday (in-person) @10:00-11:00am

Friday (in-person) @10:00-11:00am
