Slug Events
Slug Events Team
Version 1
Release Date: 03/13/2025
Revision #1
Revision Date: 01/15/2025

Release plan

High-Level Goals

- Be able to see markers on a map of Santa Cruz that represent various events.
- Be able to create and event with relevant information and have it appear as a marker to other users.
- Ensure all events and users are stored in a database, and it can be updated in real time.
- Backend that handles requests and information that is sent.

Timeline

Sprint 1

Priority Level	User Stories	Story points
High	As a user, I want to gain access to the site by logging in through Google so that event organizers are separate and people cannot impersonate me.	8
High	As a user, I want to see a map of Santa Cruz so that I can choose where to put an event.	8

Sprint 2

Priority Level	User Stories	Story points
High	As a user, I want to create an event and have a marker on the map that shows the relevant information so that other users can come and are informed of it.	8
High	As a user, I want to delete an event I created so that I can cancel it if necessary.	2
Medium	As a user, I want to RSVP to an event so that the host knows I am coming.	5
Medium	As a user, I want to edit events I have made so that I can fix mistakes.	5
Medium	As a user, I want to input an address for an event so that I can create an event faster.	8

Sprint 3

Priority Level	User Stories	Story points
High	As a user, I want to filter the events by time/date or category so that I can view certain events that fit my schedule or interest me.	13
Medium	As an event organizer, I want to add a photo to my event, so that my attendees will know which place to look for.	5
Medium	As a user, I want the option to sync events with my Google calendar and remind me, so that I will not miss them.	8

Low	As a user, I want an option to use dark mode or light mode, so that I can adjust brightness to my liking.	1

Sprint 4

Priority Level	User Stories	Story points
Low	As a user, I want to be able to delete my account so that it does not stay up when I leave Santa Cruz or stop hosting/attending events.	1
Low	As a user, I want to be able to open directions to an event in Google Maps so that I don't get lost.	3
Low	As an event organizer, I want to share my event using a link so that other users can access it easier.	5
Low	As a user, I want a way to communicate with the host of the event so that I can reach out with any questions/concerns.	3

Sanity Check

- First sprint seems to be reasonable since a lot of infrastructure and groundwork need to be laid down first.
- Second sprint may be a bit of a grind but is doable. It includes all the important functionality so it is very necessary to allow for more features to be added.
- Third sprint is reasonable, most of the features will allow more convenience for the user.
- Fourth sprint is all low-priority tasks, and will allow for us to complete anything that may have been left unfinished.

Product Backlog

- [ ] As a user, I would like to have my own page where users can see events I have hosted and link my other socials.
- [ ] As a user, I'd like to be able to delete my account so that it does not stay up when I leave Santa Cruz or stop hosting/attending events.
- [ ] As a user, I would like to have a list of events near my current location so I can find them easier.
- [ ] As a user, I would like to join an organization so I can be with like-minded people.
- [ ] As an organization, I would like to have a page where users can learn about me so I can build a community of like-minded people.
- [ ] As a user, I would like recommendations based on events I have previously attended so I can find relevant events faster.
- [ ] As a user, I would like to add friends and see what events they are going to so I can attend the same events as my peers.
- [ ] As an organization, I would like to have my account show up as verified so people cannot impersonate me.
- [ ] As a user, I would like to search for events using a search bar so I can find events that I do not know the location of.
